The Information and Guidance program provides guidance for those who are considering placing a loved one in a nursing home or assisted living facility. Education and support is also provided for those having problems with long-term care facilities. Guidance, assistance and support is also given to residents of nursing homes and their families.

The Citizens' Committee provides information about long-term care for the elderly and all other businesses or professionals providing services to our elderly citizens.

Organizational services and activities are implemented through the dedicated efforts of hundreds of community volunteers who participate in our programs.

The Citizens' Committee to Protect the Elderly (CCPE) is a private, non-profit organization funded by grants, individual donations and groups who have a heightened sensitivity for the elderly.
