Bland Ministry Center offers a construction ministry. The Center is actively involved in facilitating and participating in various construction projects. Repair of homes of persons in need by roofing, painting, installing wheelchair ramps, performing maintenance, yard work and cutting wood may be some of the services available. In the spring and summer volunteers are available to help with these projects. In the spring and summer, the Center receives volunteer teams from all over the U.S. to assist with construction and to help with other needed projects.

If you or someone you know is in need of home repairs, please contact the office to fill out a construction request form. Staff will work with clients to determine whether they are eligible for assistance and to pair client needs with mission teams according to skill level.
