Stapleton Elder Law offers long term care planning to include Medicaid consideration. Medicaid provides medical assistance to low income individuals, including those who are 65 or older, disabled or blind. Medicaid is the single largest payer of nursing home bills in America and serves as the option of last resort for

people who have no other way to finance their long term care.

Stapleton Elder law has the experience and expertise to help you avoid the financial hardship often associated with the high cost of long term care.
