CaptionCall® is a state-of-the-art telephone for anyone who experiences difficulty hearing on the phone.

Free installation; Free hands on training and free ongoing customer support.

Similar to captioned television, CaptionCall uses advanced technology and a communications assistant to quickly provide written captions of what callers say on a large, easy-to-read screen. It works like a regular telephone – simply dial and answer calls as usual – speak and listen using a phone handset like always. Plus, CaptionCall offers exceptional sound quality with audio and frequency settings that can be customized to each person's hearing loss.

Service Area(s)

Nationwide
