Being a caregiver for your aging loved one takes a significant amount of physical, emotional, and mental energy. The Pearl at Watkins Centre offers respite care to those family members or caregivers who need to rest and recharge. Respite and personal care extend to those recovering from surgery or a recent hospital stay by offering assistance with:

- Coordinating therapy
- Bathing
- Grooming
- Personal hygiene
- Medication management
- Modified or restricted diet plan

Multiple planned stays are highly encouraged. The short-term program is available as an adult day club or live-in residency for up to 60 continuous days.
